USE SOLAR4STEM® 200 TO ENHANCE CLASS INSTRUCTION

The CME™ solar4STEM® 200 Solar Education Trainer kit (p/n 0015231-001) is a new solar4® educational product that provides grades 3 – 14, STEM academy, community college, or vocational teachers with materials and equipment in a portable configuration. A collection of suggested experiments are included in the manual to aid the teacher in preparing class experiments in electrical power, solar derived power, geography, seasonal solar location, etc. All components of a solar energy generation system are provided including the solar panels, tripod, battery for energy storage, instructional control panel, charge controller for charging and managing the battery, AC inverter, and battery charger.
