

Calibration & Maintenance/Repair Services

NIST Traceable Primary and Transfer Standards

Calibration Lab Workstation

Air Data Test Set Calibration & Repair Services

As an A2LA accredited ISO 17025 Calibration Lab, CME may issue Certificates of Compliance (CoC) on all calibrations which are to NIST traceable standards.

- Up to 1,000 PSI Capability

Common Test, Measurement, and Diagnostic Equipment we calibrate, maintain, or repair are:

Pressure/Vacuum:

- Air Data Test Sets / Pitot Static Test Sets
- Pressure Controllers, Calibrators/Indicators
- Gauges and Transducers
- Air Data Test Sets / Pitot Static Test Sets

Electrical/Electronic & Electro-mechanical assemblies:

- Control Panel/Rack Mount Instrument Repairs
- PC Board repair to component level
- Power Supplies & Distribution Equipment
- Test Measurement & Diagnostics Equipment/Special Test Equipment
- Ground Support Equipment.

Maintenance Repair & Refurbishment

CME provides a maintenance operation with ready access to the parts and high-trained factory technicians to maintain, adjust, configure, program, or repair your equipment. Additionally, CME can perform system testing, simulation, and debugging equipment for modifications or upgrades. If you have any questions, we invite you to allow our talented staff to answer and assist you with repair and refurbishment needs or issues.

Options for Repair scope of work includes:

- Analysis of repair spend for potential savings
- Warranty tracking including in-service dates
- Calibration, calibration management, and NIST traceable calibration certificates
- Vendor Managed Inventory (VMI) program to provide bin management and logistics for repair components
- Failure Analysis for repeat repairs and trends
- Migration/modernization support for legacy and obsolescence.

A2LA ISO 17025 Accredited Calibration Lab

Accredited Laboratory

A2LA has accredited

CUSTOM MANUFACTURING AND ENGINEERING

Pinellas Park, FL

for technical competence in the field of

Calibration

This laboratory is accredited in accordance with the recognized International Standard ISO/IEC 17025:2005 *General requirements for the competence of testing and calibration laboratories*. This laboratory also meets R205 – Specific Requirements: Calibration Laboratory Accreditation Program. This accreditation demonstrates technical competence for a defined scope and the operation of a laboratory quality management system (refer to joint ISO-ILAC-IAF Communiqué dated April 2017).

Presented this 26th day of June 2018.

President and CEO
For the Accreditation Council
Certificate Number 4081.01
Valid to August 31, 2020

For the calibrations to which this accreditation applies, please refer to the laboratory's Calibration Scope of Accreditation.
