

# Pressure Calibration & Repair Services

A2LA Accredited ISO 17025 Pressure Calibration Lab

ISO 9001  
Calibration

ISO 17025  
Calibration

Repair  
Services

- We calibrate Handheld Calibrators, Benchtop Calibrators, Digital Gauges, and Air Data Test Sets
- NIST Traceable Calibrations
- Pressure Instrument Engineering Design to Manufacturing Technical Expertise
- Competent, Trained, and Highly Experienced Technical Staff
- Customer Asset Management/Tracking
- Monthly Customer Calibration Scheduling/Recall
- Up to 1,000 PSI Capability

## Pressure Instrument Calibration Services

- Environmentally Controlled, Commercial In-house Pressure Calibration Lab
- A2LA Accredited ISO 17025 | ANSI/NC SL Z540-1-1994 | OEM Specified Requirements
- Perform Pressure Calibration for Government and Industry
- Extensive Automated Calibration - OEM Comparable
- Flexible Scheduling for In-House or Field Service
- Next on Bench & Expedited Turn-around
- Other Specialized Calibration: Low Pressure Calibrators, Controllers, Indicators/Gauges

# Calibration Services

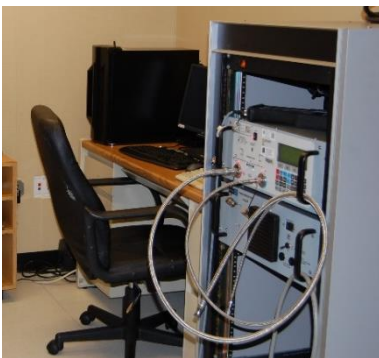

CME offers standardized calibration services traceable to national and international standards with short turnaround times. Calibrations to primary standards are performed in our A2LA Accredited ISO 17025 Calibration Lab. Industry standards typically recommend recalibration intervals of 1 year. It should be noted recalibration intervals for measurement equipment depend heavily on the specific application and the equipment's usage.

- CME's calibration services are performed to OEM procedures
- CME maintains lab NIST-traceable primary standards and transfer standards
- As a value added reseller, CME can provide third party, specialized servicer of OEM pressure products.

CME provides excellent technical capabilities to customers and perform regular and responsive calibration services on leading makes and models of pressure instruments to National standards or OEM published standards. Calibration accredited to ISO/IEC 17025. Calibration procedures are defined in internationally recognized standards and procedural guidelines, or procedures developed by the respective laboratory and audited by a recognized accreditation body. Accredited calibrations are provided by CME and these are typically, used for the calibration of working and transfer standards. Accredited calibrations are available at CME.

# Maintenance & Repair Services

CME performs maintenance diagnostics and repair on pressure instruments. These maintenance operations include:

- Complimentary evaluation services
- Perform maintenance to restore product to service condition
- Maintenance according to manufacturer's specifications
- Expert repair to assembly/component level
- Built-in preventative maintenance included with this work based upon schedule requirements and/or historical information

These measurement instruments can be calibrated and/or repaired. For other specialized requests, please contact CME.

- **Pressure Controllers, Calibrators**
- **Indicators/Gauges**
- **Air Data Test Sets / Pitot Static Test Sets**

To [Request a Quote](#) for Calibration or Maintenance/Repair Service today or email: [sales@custom-mfg-eng.com](mailto:sales@custom-mfg-eng.com) or call: 727-547-9799 Ext. 1799.
