

TPS 800

DESCRIPTION

Leveraging the best in commercially available technology and components, CME's ruggedized PP-2953 D/U and PP-6224 C/U Tactical Power Supply (TPS) is a single, environmentally sealed, modern replacement for the PP-6224 B/U and PP-2953C/U power supplies.

The TPS provides up to 800 watts to power 28 VDC (24 – 32 VDC) electrical devices from a 115/230 VAC source (auto switching) at 50, 60, or 400 Hz single phase. Essentially the same power supply, the PP-2953D/U power supply comes with three cables (two DC, and one AC); and the PP-6624C/U comes with two cables (one DC, and one AC).

This bench-top power supply meets rigorous environments. The highly reliable TPS 800 (CME P/N 0011213-001) delivers superior performance, ease of use, and user benefits.

APPLICATIONS

TPS 800 is ideal for providing quiet, reliable power in military or homeland security operation centers, command posts, headquarters, and encampments, for radios, and other military electronics or sensors.
